Honda
CR-V

Your car needs to be versatile. Ready for virtually anything and everything. In short, it needs to be a lot like you. Enter the Honda CR-V. It's well suited to just about any task you might ask of it. Real Time™ 4WD and a 146-hp engine make it an SUV that is as much fun to take downtown as it is to take camping. In addition to finding the safety, quality and reliability you expect from Honda, you'll discover innovations throughout, like a cargo floor that turns into a picnic table. We think you'll find the CR-V an excellent match. After all, it's almost as unique as you are.

CR-V EX shown in Satin Silver Metallic with accessory roof rack.

CR-V 2WD LX: The CR-V was designed to be well prepared. The LX comes with a 146-hp, 2.0 liter, DOHC engine, 4-speed automatic transmission with Grade Logic Control, dual front airbags, power windows, mirrors and door locks, rear child-seat tether anchors, a removable picnic table, air conditioning, an AM/FM stereo with cassette and 4 speakers, and two 12-volt power outlets.

CR-V 4WD LX: The 4WD LX includes all the creature comforts that make driving the 2WD LX such a good time, but in addition offers Honda's Real Time 4-wheel drive. This model comes with a standard 5-speed manual transmission, and is available with a 4-speed automatic transmission.

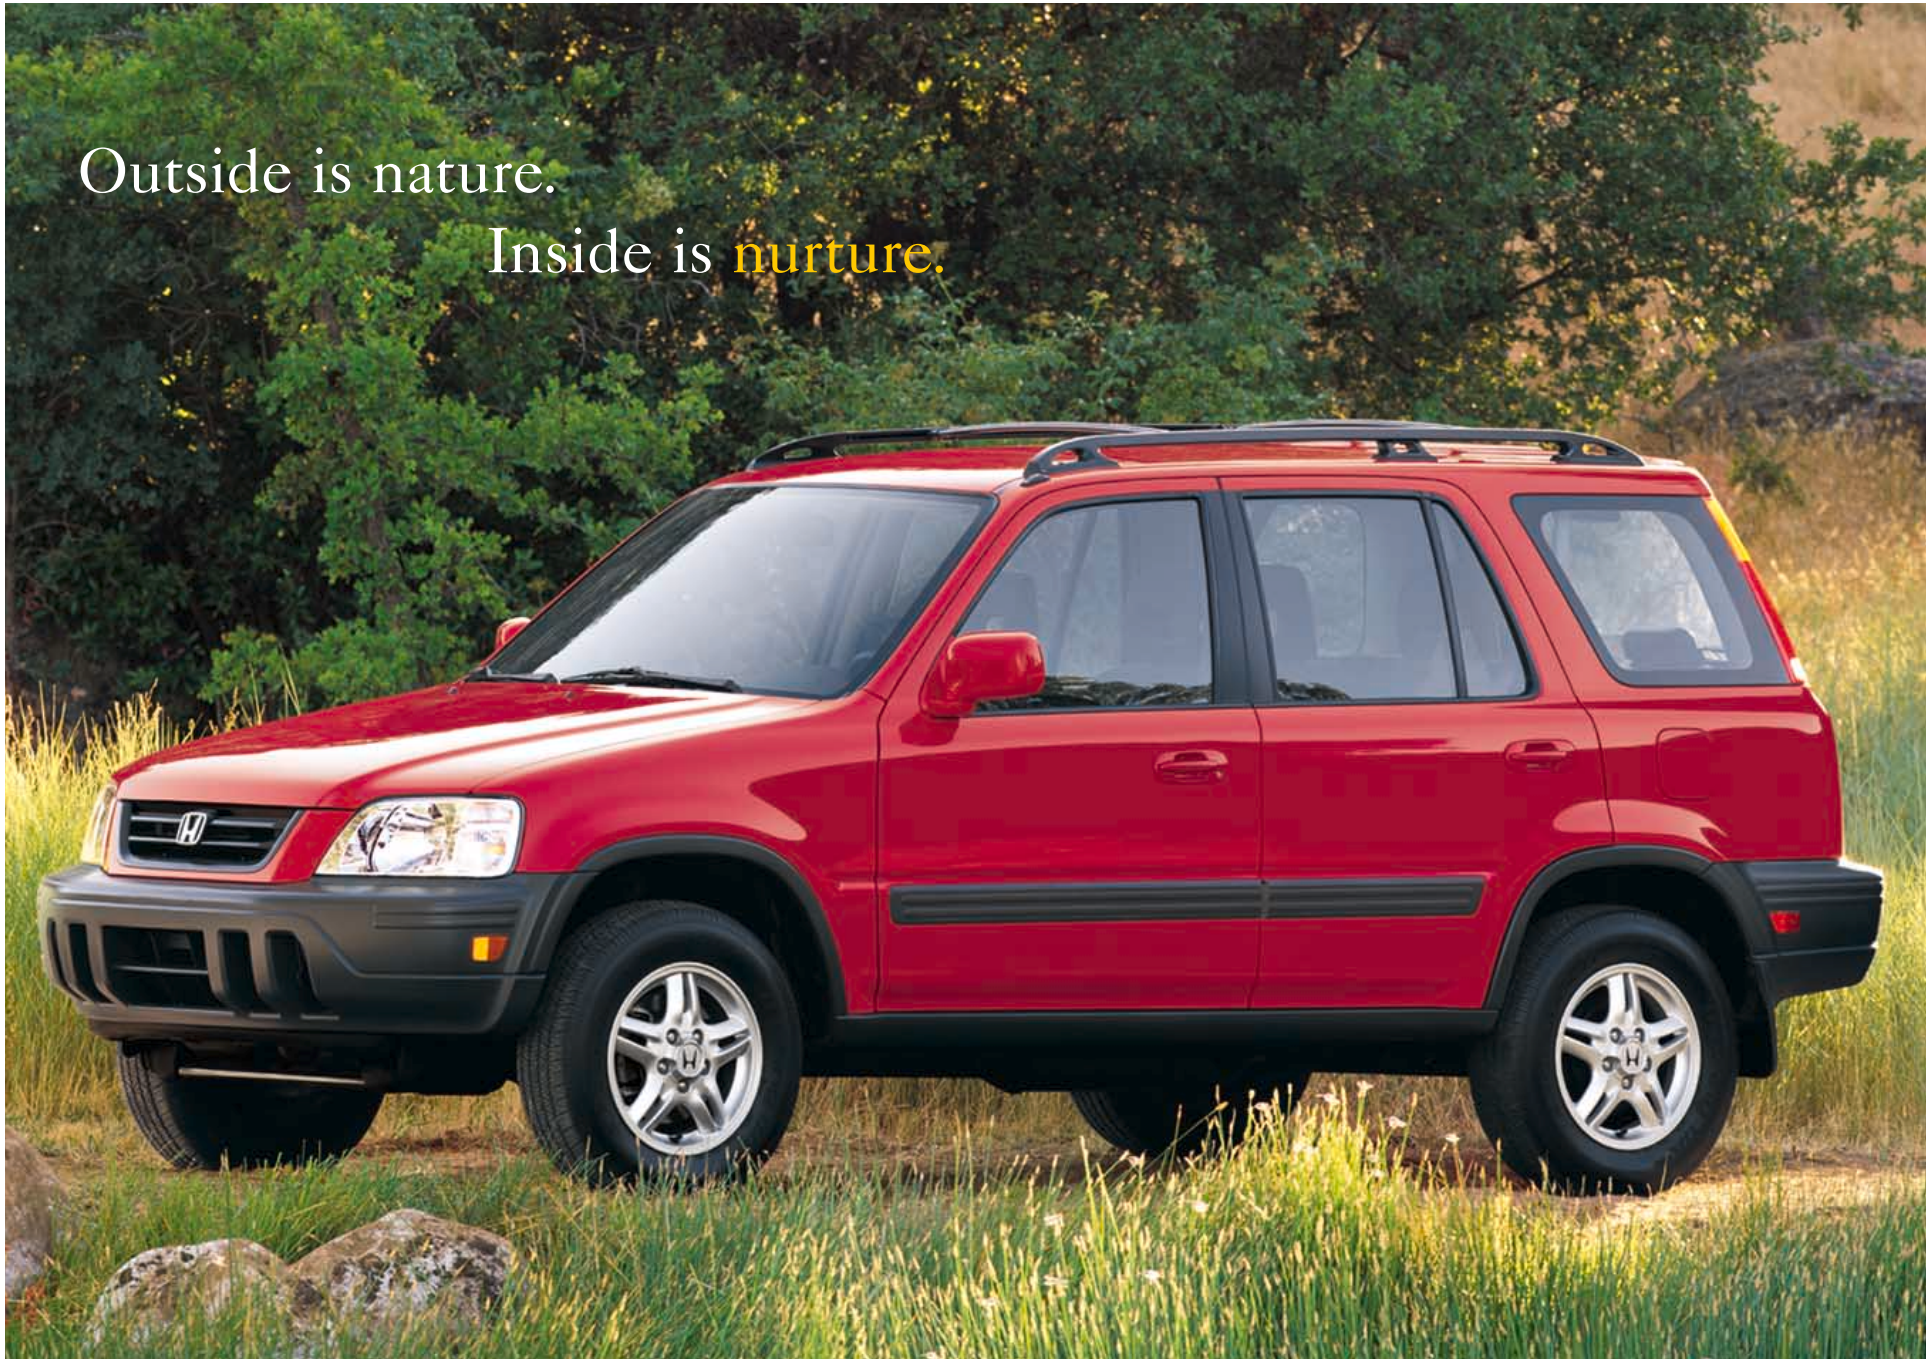

After you decide on a model, you'll need to decide on a destination.

CR-V 4WD EX: The 4WD EX offers several more attractive features, like alloy wheels, an anti-lock braking system (ABS), an AM/FM stereo CD player with 4 speakers, a remote entry system, floor mats and body-colored mirrors and door handles.

CR-V 4WD SPECIAL EDITION: At the top of the line is the CR-V Special Edition. It features leather-trimmed seats, a leather-wrapped steering wheel, rear privacy glass and an AM/FM stereo cassette with in-dash CD player. Adding to its rugged good looks are body-colored bumpers and side moldings, a chrome grille accent and a body-colored hard spare tire cover.

CR-V EX shown in Milano Red with accessory roof rack.

CR-V EX shown in Nighthawk Black Pearl with accessory roof rack.

You'll find the CR-V's cargo floor lifts out to become a picnic table and reveals **the rear storage well.** It's easy to get to and has room for any number of items.

Let's go camping. Climb inside the CR-V. Its expansive interior beckons as earnestly as the mountains, with well-thought-out ergonomics. Controls and gauges are all logically placed, and in the SE there are enticing leather-trimmed seats and an AM/FM stereo that plays CDs as well as cassettes. The driver's seat and steering column adjust to accommodate a wide range of statures. Between the front seats is a clever tray table that folds away so you can walk through to the rear seats. The rear seats feature center armrests, and recline to a flat position on the EX and SE models. Once you've arrived at your campsite, make sure to take full advantage of the removable folding picnic table as well as the two helpful 12-volt outlets. We hope you enjoyed the trip. But we would bet that your next journey in the Honda CR-V, be it away from civilization or in the heart of it, will be just as satisfying.

The convenient **50/50 split rear seatback** allows you more flexibility in arranging the cargo and seating areas. So bring along other people, their stuff or any combination thereof.

Proof that you can take it all with you.

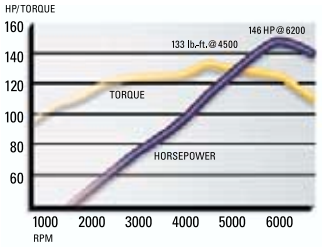

CR-V EX interior shown.

The EX and SE models have a **remote entry system** that can unlock the CR-V's doors and rear glass hatch with a push of a button from up to 50 feet away. Handy, if your arms are full of groceries.

The CR-V's **two-way tailgate** allows you to open just the upper glass portion to toss in your backpack and sleeping bag. But if you need to load larger items, you can open the side-hinged tailgate.

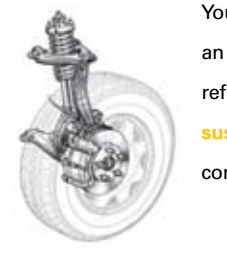

The CR-V's 2 liter engine produces 146 horsepower with a wide, flat torque line. Torque lets you move quickly in city traffic. Horsepower lets you cruise effortlessly on the highway.

The CR-V uses **4 valves per cylinder and dual overhead camshafts (DOHC)** to draw in more air and fuel. This helps the engine make more power and torque.

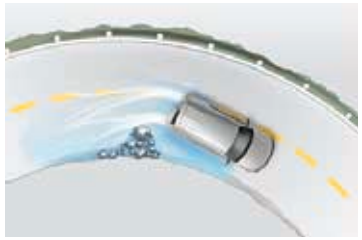

You want sure-footed grip without an overly stiff ride. The CR-V's very refined **4-wheel double wishbone suspension** provides outstanding control and a comfortable ride.

CR-V Special Edition shown in Naples Gold Metallic with accessory roof rack.

Finally, a vehicle so versatile it will cause you to rethink your definition of "road." The Honda CR-V is packed with features and innovative technology. So you can expand your horizons and start to explore a new world. Just turn the key. And let the fun begin.

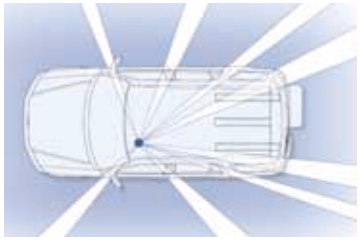

You've seen it from afar, the road that beckons, inviting you to a place not so crowded. If only you had the wheels to get there. Enter the Honda CR-V. Its 146-horsepower engine has the power to take you back to nature. And its rigid chassis, stabilizer bars and 8.1" of ground clearance will help tame the roads you may encounter there. A supple, very refined 4-wheel double wishbone suspension system precisely positions the P205/70 R15 tires and wheels (alloy wheels on EX, SE models) for maximum comfort and control. CR-V's clever Real Time 4WD system senses wheel slippage, and automatically engages 4-wheel drive for more traction – there are no levers to shift. Front disc brakes and an anti-lock braking system (ABS) (on EX, SE models) help assure safe stops. To shift your adventures into gear, there's a 5-speed manual or an available 4-speed automatic transmission (standard on 2WD LX, 4WD SE). To increase comfort, the automatic uses Grade Logic Control programming to eliminate "gear hunting" when driving up or down hills.

CR-V's **anti-lock braking system (ABS)** (on EX, SE models) helps the driver retain steering control of the vehicle when braking hard, especially on slippery surfaces.

CR-V EX shown in Milano Red.

CR-V provides **over 300° of outward visibility.** This excellent view of the road, plus a high seating position, helps the driver see and avoid trouble before it happens.

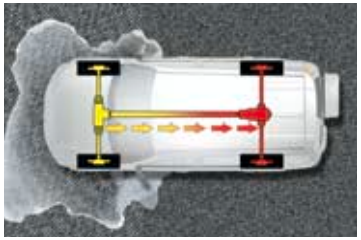

Life has a way of delivering the unexpected. That's why it's good to have a CR-V when you take to the streets. If the unthinkable should happen, the CR-V's rigid body also functions as a "steel safety cage." Energy-absorbing bumpers help protect in minor impacts. Front and rear crush zones progressively collapse to help absorb impact energy in a severe collision. Sturdy steel door beams help protect in a side impact. Primary occupant protection is provided by 3-point seat belts at all outboard seating positions, while dual front airbags‡ (SRS) help provide supplemental protection for the driver and front passenger in a moderate-to-severe frontal collision. Automatic front seat belt tensioners and adjustable front seat head restraints also help provide protection. To help keep the kids safe, there are auto-locking seat belt retractors, child-proof rear door locks and rear child-seat tether anchors for securing compatible child seats. And the CR-V's smooth variable-assist power rack-and-pinion steering and excellent handling will help give you the sure responsiveness you need to stay out of harm's way.

‡Honda reminds you and your passengers to always buckle up.

The CR-V's built-in **front and rear crush zones** progressively crumple in a severe collision to help absorb impact energy. Strong tubular steel door beams help provide occupant protection in a side impact.

When the road gets slippery, the CR-V's **Real Time 4WD system** automatically engages when you need the advantages of increased traction. And does so without you having to shift a lever.

For years, Honda has led the industry in reducing the impact automobiles have on

the environment. Proving that it can be done with little sacrifice to performance. In 1975, we introduced the innovative Civic CVCC, the first car to pass the federal Clean Air Act standards without the use of a catalytic converter. Ever since, our engineers have pushed the limits of design. When California's standards for Low-, Ultra-Low- and Super Ultra-Low-Emission Vehicles (LEV, ULEV and SULEV) were introduced over the past seven years, a Honda was the first gasoline-powered car to meet each one. In fact, we have met these government standards before they were mandatory. While all Civics are now ULEV or better, every Honda does its part. From the natural-gas Civic GX, the cleanest internal combustion production-engine vehicle ever built, to the LEV-rated 240-hp S2000 roadster. With our track record, it's only fitting that we would

be the first to introduce a gasoline-electric-powered hybrid car in the United States: the Insight. This ultra-low-emission vehicle was the first car to receive the Excellence in Environmental Engineering Award from the Sierra Club. Honda will continue to lead the way in providing you with some of the most advanced and cleanest vehicles on the road today.

EXCELLENCE IN ENVIRONMENTAL ENGINEERING
SIERRA CLUB

When you buy a new Honda, a team of dedicated professionals is standing by to assist you. Your dealer can help personalize

your Honda with a wide assortment of Genuine Honda Accessories. Have them installed at the time of purchase and they're covered by the 3-year/36,000-mile limited warranty.* And our Honda-trained technicians are available to help you take care of your new car. With their vast expertise and knowledge, they'll be able to help keep your vehicle in excellent condition. After all, no one knows your Honda better. If you'd like additional information, call us at 1-800-33-HONDA. Or visit our Web site at honda.com. If you're looking for quality, dependability and exceptional service, it's time for a Honda.

HONDA Finance

If you want quality service and dependable nationwide support, turn to **American Honda Finance Corporation.** They can assist you with your next purchase of a Honda automobile or product.

HONDA Care

Honda Care is a comprehensive, affordable vehicle and travel protection plan that is backed by Honda reliability, service and parts. Check with your dealer for additional information.

Add comfort to your passenger's seat with an **adjustable armrest.** It's mounted at the same height as the door armrest for even support. And the pivoting design allows for easy passage between seats.

Keep items stored in the cargo area out of sight with a **retractable cargo cover.** It's made from vinyl that's color-coordinated to your vehicle's interior, and will help your CR-V look more clutter-free.

Other available accessories:

- 6-Disc In-Dash CD Changer
- CD Changer
- CD Player
- Cassette Player
- Roof Rack
- Roof-Rack Attachments
- 15" Alloy Wheels
- Keyless Entry/Security System (LX)
- Splash Guards (front)
- Side and Rear Sport Trim
- Floor Mats (LX)
- Rear Cargo Net
- Trailer Hitch
- Spare-Tire Cover

Visit your Honda dealer or honda.com for a complete list of accessories.
